

A photograph of St Paul's Cathedral in London, showing the dome and spire against a clear sky.

St Paul's Cathedral at 300

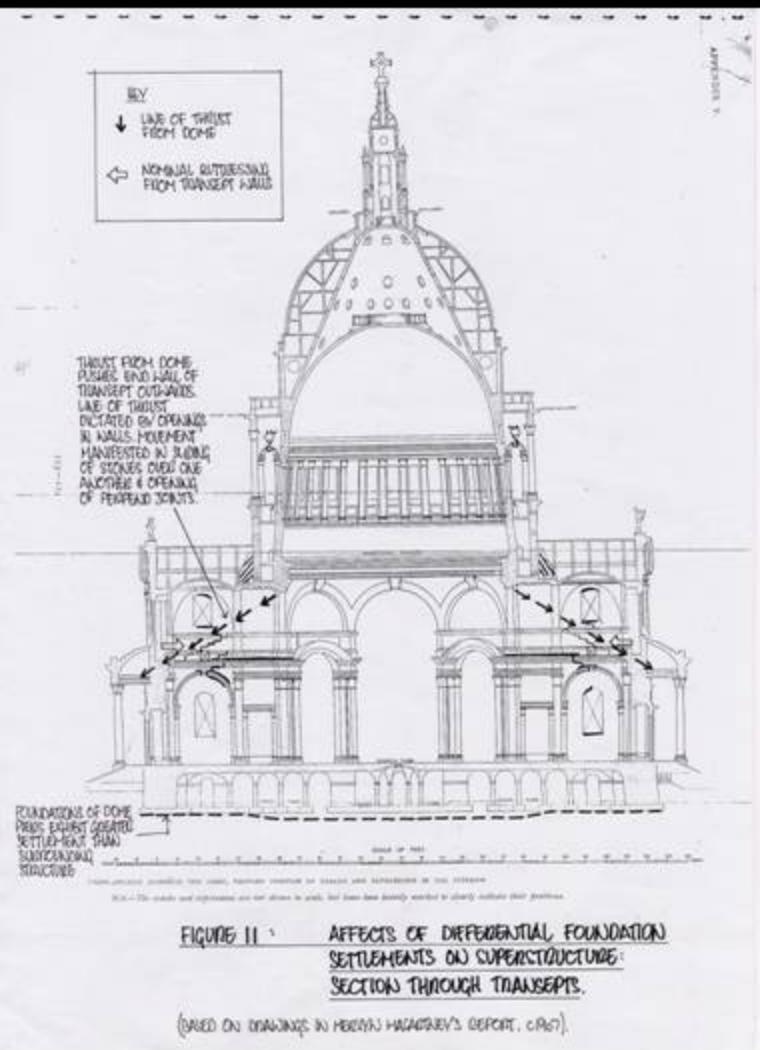

Part 2

Martin Stancliffe
Surveyor to the Fabric

Recurring issues

1. Structural stability of the masonry
2. The condition of the external stonework
3. The so called ‘completion’ of the cathedral
4. Changing patterns of liturgical use
5. The use of the ancillary spaces in the crypt and triforium
6. The setting of the cathedral.
